

Ladies and Gentlemen,

ECO Sopot informs that municipal waste in Sopot is recycled.

It applies to permanent inhabitants of the city, as well its guests and tourists.

Municipal waste collected **non-selectively** (so-called mixed waste) is to be put in **black containers**.

Municipal waste collected selectively is to be divided into five groups and put into marked containers:

PAPER (blue container), **METALS AND PLASTIC (yellow containers)**, **GLASS (green container)**, municipal waste collected separately, **BIO (brown container)** in accordance with the following rules:

METALS AND PLASTIC	PAPER	GLASS	BIO	RESIDUAL WASTE (MIXED)
